SUMMARY

Self-taught web developer transitioning from a non-IT process/data role into frontend and web development. Hands-on experience building and deploying responsive websites using HTML, CSS, Bootstrap, JavaScript, Python, Flask and MySQL, with a strong interest in responsive UI and creating user-friendly web experiences. Seeking an entry-level opportunity in web development to contribute, learn, and grow in the IT industry.

EXPERIENCE

IBridge Smart Solutions | Sep 2024 – Mar 2026

Senior Process Executive

- Accurately entered and updated customer and financial data into Excel with 99% accuracy. Processed 500+ records daily, consistently meeting weekly targets. Collaborated with team on process improvement initiatives.

PROJECTS

Local Service Booking System | Python, Flask, MySQL, Html, Css, JS

- Developed a full-stack service booking application covering multiple service categories with a customer booking flow and admin panel.
- Designed the MySQL database schema and implemented backend routes in Flask to handle booking, service listing, and admin operations.

Responsive Website & UI Design projects | Html, Css, Bootstrap, JS

- Designed and built additional login pages, landing pages, and a personal portfolio website and other business website design to strengthen responsive layout and UI fundamentals.
- Built a responsive landing + order website with live order summary for a homemade food business.

EDUCATION

- B.Sc. Computer Science – Sarah Tucker College | 2021 – 2024 | 80%
- Higher Secondary – Municipal Girls Higher Secondary School | 2019 – 2020 | 87%
